

– **Petition** –

***To the Honourable the Legislative Assembly of the Province of British Columbia, in Legislature Assembled:
The petition of the undersigned, KamloopsA4C, of the city of Kamloops, BC, states that: Canadian Citizens oppose the
UN Agenda 21 / Agenda2030 Agenda2050 spawned Zero Emission Vehicle Act in British Columbia.***

- Canadians want a commitment that the Province of BC, will uphold citizen rights and freedoms;
- Given the actions of the government in dealing with unlawful mandatory vaccination, masking, business lockdowns, travel restrictions, censorship and peaceful protest subverting the Canadian Bill of Rights and the Charter of Rights and Freedoms;
- Given that the United Nations aka World Economic Forum Agenda 2030 “15 Minute Cities” is an authoritarian attack on Canadian's Rights and Freedoms to Privacy, Security and Mobility;
- Given the UN and WEF plan to implement the goals set forth in Klaus Schwab's book “Covid-19 The Great Reset” to hand all government power over to the NWO – which involves the use of smart cities;
- Given that the Agenda 2030 “Smart Cities” will not result in Net Zero Carbon emissions and save the planet as claimed - but instead will result in a cash grab via Central Bank Digital Currency as Carbon Taxes;
- Given that B.C. became the first jurisdiction in the world to legislate a 100% ZEV sales requirement. The ZEV Act, passed on May 30, 2019 without Constituent knowledge, consent nor consensus;
- The CCAP target of net zero by 2050 and absorbing remaining emissions through carbon sinks is not realistic as BC forests are being cleared at an alarming rate by the issuance of clear cut logging practices;
- Constituents are expected to surrender their mobility rights - yet weather modification GHG, shipping GHG and heavy industry GHG not addressed;
- According to the December 2020 Carbon Majors Report the top 20 oil, natural gas, and coal corporations have contributed to 35% of all fossil fuel emissions – but are not held accountable;
- Corporations and Big Multinational Industry continue business as usual – being the greatest environmental polluters – but tax payers will foot the bill and suffer rights restrictions;
- According to the Kamloops Community Climate Action Plan 2021 document - “reliance on personal vehicles will eventually be reduced through changes in neighbourhood design and improvements to transit and active transportation” - shows the intention is to deliberately obstruct Constituent freedoms of mobility, security and privacy;
- Implementing the World Economic Forum, United Nations – New World Order foreign private corporate Agenda 21, 2030 & 2050 will result in “digital authoritarianism” that will be nothing less than an open air neighbourhood prisons where citizens will be tracked and traced by AI;
- The Agenda2030 goal to push citizens out of their motor vehicles is a direct attack on mobility rights as guaranteed under the Canadian Bill of Rights, Charter of Rights and Freedoms and the Coronation Oath;
- The claim that EV vehicles do not have a carbon footprint is simply untrue - EV battery mining, manufacture and disposal are extremely harmful to the environment and are not Carbon neutral at all;
- The Electricity Grid in British Columbia does not have the capacity for an entire city of residents to plug in their EV charger after arriving home from the workplace – and creating more Hydro Electric Dams creates extreme ecological damage;
- Canadians are not willing to hand over our sovereignty, rights, security and freedoms to foreign corporate private control – regardless of any such CleanBC Roadmap and demand an active voice on decisions;
- Canadian Citizens want a public statement from the Province, that they will reject unconstitutional agenda, repeal the Zero Emission Vehicle Act and uphold the rights and freedoms of Canadians regardless of any foreign corporate Agenda forthright;

Your petitioners respectfully request that the Honourable House to:

1. *Desist implementing the private foreign corporate Agenda2030 Agenda2050 **Zero Emission Vehicle Act**;*
2. *Call upon all **Members of the House** , to publicly commit to uphold The Charter of Rights and Freedoms and the Canadian Bill of Rights;*
3. *Call upon all **Members of the House** to follow Canadian law and represent your constituents instead of foreign corporate private interest;*

British Columbians feel our government is being controlled by the World Economic Forum and demand the interests of constituents be followed instead.

Dated this _____ day of _____, 20____.
